Going to NM but closest airport is Durango. Thought I would stop in and check with Region 6 liaison Ronnie Crossland and say hi to the EU before going to Aztec and Farmington

Hi Dave,

Not sure where you are going. We are in region 8. Jon is in region 6

We need to do a comparison of the attached sediment results to our pre-release sediment concentrations. Values that exceed the pre-release numbers need to be compared to the attached recreational screening levels.

Please note that some of the locations are ditches and we are only concerned with river sediments. An attached table describes the sample locations.

Wendy and I will call to make sure we are on the same page.
